---

## Introduction

The Crimplesham Parish Council have developed a communication and engagement strategy that will assist with working together with the members of the parish in Crimplesham.

The Communications and Engagement Framework has been developed to provide a consistent approach to both communications and engagement across all aspects of Council matters. By implementing this framework, the Council aims to engage with and enable the community.

Crimplesham Parish Council, aim to inform the community on matters, considerations, innovations and projects that impact them, and will make sure members of the community are heard and their views considered as part of Council's decision-making process. Recognising stakeholders and individuals in the community are often time-poor and busy people, the Council is committed to making sure effective engagement is achieved, and that the Council is carrying out active and authentic participation with the community.

In order for the Council to make sure effective engagement is achieved, and that the Council is encouraging active and authentic participation with the community, templates have been created to assist councillors in delivering communications and engagement strategies.
